PROFESSIONAL SUMMARY

Entry-level MERN Stack Developer with hands-on experience building full-stack web applications, RESTful APIs, and responsive UIs using React.js, Node.js, Express.js, and MongoDB. Skilled at translating UI/UX designs into scalable, production-ready code, integrating third-party and AI-assisted features, and writing clean, maintainable JavaScript (ES6+). Certified in Full Stack Development (MERN) and eager to contribute to a growing engineering team as a Full Stack Developer.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Flexbox, Responsive Web Design

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Asynchronous Programming, CRUD Operations

Database: MongoDB, Mongoose ORM, Schema Design

Tools & Workflow: Git, GitHub, Postman, VS Code, npm, GitHub Pages

Core CS: Data Structures & Algorithms (basics), REST API Design, Agile/Scrum familiarity

HIGHLIGHTED PROJECTS

ShopSmart AI — Full-Stack E-Commerce Platform | MERN Stack (React, Node.js, Express, MongoDB), JWT Authentication

[GitHub: ShopSmart-AI](#)

- Built a full-stack MERN e-commerce web app featuring an interactive AI shopping concierge, natural-language product search, and personalized recommendations.
- Implemented secure user authentication and session handling using JWT, and designed RESTful APIs connecting the React frontend to an Express + MongoDB backend.

MERN CRM System | MERN Stack (React, Node.js, Express, MongoDB)

[GitHub: mern-crm](#)

- Engineered a scalable CRM application with complete CRUD functionality for managing leads, pipeline stages, and client records.
- Integrated dynamic RESTful APIs backed by Express.js and Mongoose models to stream real-time client updates and pipeline logs.
- Implemented client-side state management in React and automated form validations to secure data submission workflows.

E-Commerce Backend System | Node.js, Express.js, MongoDB

[GitHub: Building-an-E-Commerce-Backend-System](#)

- Architected a robust backend API service powering e-commerce operations, including user authentication, product catalog handling, and order management.
- Optimized database querying and error-handling middleware using async/await, reducing endpoint response latency across high-frequency requests.

PROFESSIONAL EXPERIENCE

NOC Executive — Jio Telecommunications 2024 – Present

- Monitored critical operational logs and telecom network infrastructure to ensure system stability and strict SLA compliance.
- Escalated technical incident reports and performed primary root-cause troubleshooting in coordination with cross-functional technical teams.
- Applied structured problem-solving and process discipline directly transferable to debugging and maintaining production software systems.

EDUCATION & CERTIFICATIONS

Full Stack Development (MERN) Certification 2026

Entri Elevate (In Collaboration with Illinois Tech, USA)

Bachelor of Engineering (B.E.) in Mechanical Engineering

PB College of Engineering, Tamil Nadu
